

BASIC RIGGING FOR ROPE RESCUE (ROBR)

This course is designed for personnel whose duties require training in basic rope rescue knowledge and skills, but not rappelling. Students are introduced to rope construction, rope characteristics, rope hardware and various knots and hitches. They will participate in patient packaging and stokes litter handling exercises, and will be trained in practical haul systems and their uses. Students will need supplies for note taking, helmet with chin strap, clean leather gloves and work or hiking boots.
